About Pt. J.N.M. Medical College

Pt. Jawaharlal Nehru Memorial Medical College is premier state medical college in Raipur that came in to existence on 9th September 1963. Along with MBBS course, MD, MS courses are running in 20 departments. Various post-graduate and undergraduate courses like M.Sc. in Medical Biotechnology in , Master of Science in Radiotherapy Technology, Diploma in Radiological Physics and B.Sc. Nursing are well running. The college is also actively involved in research and development. There are many projects

running here funded by ICMR, DST, BDT and state government.

About Bioinformatics Centre

The Bioinformatics Centre (BIC) at Department of Biochemistry, Pt. Jawaharlal Nehru Memorial Medical College, Raipur, Chhattisgarh was established in April, 2013 and funded by Indian Council of Medical Research (ICMR), Govt. of India.

Objectives of the center:

- To promote modern biology research in host institute and regional medical colleges.
- To increase awareness of recent developments in the in modern biology through workshops and training programs.
- To develop and support databases of specific clinical findings.
- To develop new methodologies and solutions for prevention and amelioration of diseases of regional and national importance

Objectives of Workshop

The workshop has been designed to provide the theoretical background as well as a hands-on approach to Genetic analysis, Protein structure prediction and validation, Molecular Docking and Virtual Screening. It will cover the use of open source bioinformatics tools, software, servers and databases for genome and gene expression analysis, proteins structure modeling and computer aided drug designing.
