About Pt. J.N.M. Medical College

Pt. Jawaharlal Nehru Memorial Medical College is a premier state medical college in Raipur that came in to existence on 9th September 1963. Along with MBBS, MD & MS courses are running in 20 departments. Various post-graduate and undergraduate courses like M.Sc. in Medical Biotechnology, Master of Science in Radiotherapy Technology, Diploma in Radiological Physics and B.Sc. Nursing are well running. The college is also actively involved in research and development. There are many projects running

here funded by ICMR, DST, DBT and state government.

About Bioinformatics Centre

The Bioinformatics Centre (BIC) at Department of Biochemistry, Pt. Jawaharlal Nehru Memorial Medical College, Raipur, Chhattisgarh was established in April, 2013 and funded by Indian Council of Medical Research (ICMR), Govt. of India.

Objectives of the center:

- To promote modern biology research in host institute and regional medical colleges.
- To increase awareness of recent developments in modern biology through workshops and training programs.
- To develop and support databases of specific clinical findings.
- To develop new methodologies and solutions for prevention and amelioration of diseases of regional and national importance

Objectives of Training

The training has been designed to provide an introduction to Perl programming language as well as a hands-on training. Perl programming language is one of the highly preferred language in modern molecular biology research and analysis. Knowledge of Perl programming will enrich those participants who want to make carrier in genome and proteome data analysis, bioinformatics and computational biology.
